DAILY NEWS, REPORT & INSIGHTS AT THE SHOW

DAY ONE BEGINS WITH STELLAR SPEAKERS LINE-UP

George Pearson, Regional Director
- Africet Montgomery

H. E. (Mrs) Folashade Ambrose-Medebem,
Honourable Commissioner for Commerce,
Cooperatives, Trade and Investment (CCT&I)

Segun Ajayi-Kadir, Director General
- Manufacturers Association of
Nigeria (MAN)

Dr. Jummai Tutuwa Adamu
Director General, Federal Institute of
Industrial Research, Oshodi (FIRO)

The 2025 edition of West Africa's number one trade event for the packaging, plastics, printing, and food processing industries - **PROPAK West Africa** opens today, **Tuesday 9 September 2025**, to the largest delegation of world-renowned exhibitors featuring over **250 brands** under one roof.

As the annual event kicks off with **over 5,500 stakeholders** expected over the next **Three Days** across the manufacturing industry value-chain, PROPAK West Africa DAILY gathers that a high-impact conference, tagged: **The PROPAK Summit**, will be held simultaneously alongside the show. With the theme: **Shaping the Future of**

Packaging in West Africa, the dedicated forum is designed specifically for production and packaging professionals across the region, with a sharp focus on innovation, efficiency, and sustainability in manufacturing and packaging operations. This high-level summit brings together top-level industry professionals, decision-makers, and technical leads from West African manufacturing sectors that will present a dynamic mix of keynote presentations, expert panels, and industry case studies on transformative packaging and processing technologies, market trends, and sustainability practices shaping the region's industrial growth.

Right from **DAY 1** (today, Tuesday 9th September 2025), **George Pearson**, Regional Director at **Africet Montgomery**, will open the Summit with a welcome address, setting the tone for three impactful days of innovation, networking, and industry-shaping conversations. The stellar lineup of speakers who are ready to innovate, impact, and ignite consumer experience includes a keynote by **H.E. Mrs. Folashade Ambrose-Medebem**, Honourable Commissioner for Commerce, Cooperatives, Trade and Investment (CCT&I), Lagos State, joined by other top experts from the industry like **Segun Ajayi-Kadir** - Director General, **Manufacturers Association of Nigeria (MAN)**, and **Engr. Dr. Dele Abioye** - Managing Director, **BUA Foods**.

The **First Session** will have a keynote address by **Jai Prakash Singh**, CEO - **All Time Packaging Nigeria LTD**, who will open the discussion with a compelling keynote on: **The Future of Automation in Packaging: Opportunities for West Africa**. From there, an **Expert Session** by **Melika Seiderer**, the General Manager, Africa - **Ishida Europe**, follows with powerful insights on: **Automation Solutions for Sustainable Packaging - Market Access and Value Chains in Nigeria**.

Thereafter, the **Second Session** will **Unlock The Secrets To Building Lasting Brand Connections**. Here, **Oluwatobi Oluwanisola**, Shopper Marketing Manager - Reserve Scotch (South, West & Central Africa) - **Diageo**, will share his knowledge on: **Packaging Design for Consumer Appeal**, from there **Yinka Bakare**, Marketing & Innovation Director - **Guinness Nigeria**, will shed light on: **Innovations in Packaging Design to Drive Brand Loyalty**, providing you the opportunity to learn how creativity drives success! After which **Omolara Banjoko**, Marketing Manager -

FrieslandCampina WAMCO, and **Olusegun Akinyemiju**, Senior

QUOTE OF THE DAY...

Pre-owned equipment can be a tough product to buy, especially for a small company. There is obviously a price advantage over new equipment, but if you buy from the wrong company, then you may end up with a machine that doesn't do what you have been promised. At Nilpeter, we have created a dedicated pre-owned team that reconditions machines and ensures they are what we promise.

- **Mr. Thomas Anderson** -
Area Sales Manager- Nilpeter
(Stand No: 3A17)

BALLESTRA SPA **STAND NUMBER: 3B01**

Ballestra is the world leader in developing, engineering, and supplying technologies, processing plants, and proprietary equipment and machinery.

- The group includes:
- Ballestra: the world leader in processing plants for detergents and surfactants.
 - Mazzoni: the world leader in soap & glycerine processing plants and finishing lines.
 - Ballestra wholly owns:
 - Buss Chemtech AG, based in Switzerland.
 - Ballestra Engineering and Projects Limited, based in India.

BEAUMONT INDUSTRIAL SERVICES & SOLUTIONS LTD **STAND NUMBER: 1D06**

Beaumont Industrial Services & Solutions has maintained a prominent presence in Nigeria for over 20 years, dealing in a wide range of industrial products. The company is a one-stop shop that handles supply, installation, design consultation, & project management.

BRISTOL SCIENTIFIC COMPANY **STAND NUMBER: 2C13**

BRISTOL SCIENTIFIC supports professionals in the food-processing industries with high-quality lab equipment and expert guidance. With its tools and support, you can meet industry standards, solve challenges faster, and stay ahead in a competitive market.

CEMIX PRO NIGERIA LTD **STAND NUMBER: 4D03**

We are the authorized distributors of BOGE Compressors in Nigeria. It's the one-stop shop for Compressed Air Solutions. It specializes in providing top-tier industrial air solutions, offering a comprehensive range of high-quality products and services designed to optimize efficiency, reliability, and performance in your operations.

DEEP MOULDS - DEEP PLASTICS INDUSTRIES **STAND NUMBER: 2B02**

Is a leading Injection Mould Manufacturing and Engineering company. For 30+ years now, Deep Plastics has proudly and successfully manufactured 1800+ moulds, which have created trillions of useful products that touch people's lives every day. With Precision and Multitasking Made making at its core, it delivers sustainable, optimized supply chain solutions.

ELECTRONICS DEVICES WORLDWIDE PVT LTD **STAND NUMBER: 1K03**

Leaders of Induction Cap Sealers, Induction WADS/Liners, Wad inserting and Cap assembly machines. With several innovative induction sealing and WAD inserting solutions for fast-moving consumer goods, we are further recognised for speciality in design and manufacturing of equipment used in Food, Pharma, Lubricant, Edible Oil, Agro-Chemicals/ Pesticides, Adhesives, and Packaging Industry.

FILLPACK TECHNOLOGY **STAND NUMBER: 2A02**

- Name: Fillpack Technology
- Industry: Packaging Machinery
 - Products: The company offers a range of packaging solutions, including liquid filling machines, powder filling machines, bottle filling machines, and other types of packaging equipment.
 - Services: In addition to machinery, they provide installation, maintenance, and after-sales support to ensure smooth operation and longevity of their equipment.
 - Clients: They serve various industries, such as food and beverage, pharmaceuticals, cosmetics, and chemicals, providing customized solutions to meet specific packaging needs.
 - Quality: Fillpack Technology emphasizes high-quality standards, incorporating advanced technology and stringent quality control measures in its manufacturing processes.
 - Innovation: The company is known for its innovative approach, continuously upgrading and improving its machinery to keep up with market demands and technological advancements.
- KEY FEATURES**
- Customization: Tailored solutions to meet unique client requirements.
 - Technology: Utilization of the latest technology to enhance efficiency and reliability.
 - Support: Comprehensive customer support and after-sales services.
 - Global Reach: Catering to clients worldwide, with a strong presence in various international markets.

GALAXY SIVTEK PVT LTD **STAND NUMBER: 1A12**

Sieving & filtration solutions for food, pharmaceutical, chemical & many more processing industries.

ALL MANUFACTURING SOLUTION AFRICA LTD **STAND NUMBER: 2G10**

All Manufacturing Solution Africa LTD, aka AMSA, is a globally dependable partner for manufacturing industries, providing quality and affordable tailor-made solutions for manufacturing industries, which include food, pharma, and other non-food manufacturing industries. Our portfolio includes:

Packaging solutions - Single and multi-lane VFFS baggers, HFFS flow wrappers, Premade pouch filling machines, Filling & Capping technology.

Processing solutions - Cereals processing technology, Candy processing line, Bar technology, Milling technology, Filtration & Separation technology.

Product handling & distribution solutions - Pneumatic transfer systems, Product distribution systems, End of line solutions.

The solutions we provide define our commitment to quality, innovation, and integrity, ensuring we provide solutions tailored to meet customers' specific needs, ranging from new machines to services, software, and business models throughout the entire machine life cycle.

AVE TECHNOLOGIES **STAND NUMBER: 1B10**

Complete machines and systems for bottling and filling beverages

BAODING HAORUI MACHINERY MANUFACTURING CO., LTD. **STAND NUMBER: 2C14**

HAORUI MACHINERY was established in 1992, a professional manufacturer & exporter of PET bottle recycling machine, PP, PE, HDPE, LDPE bag/film/bottle recycling machine, pelletizing machine, etc With over 100 employees, an annual sales figure that exceeds USD10Million Dollars, the company is still currently exporting 30% of its production. It always insists on "Quality first" and inspection after production, which makes it more popular in the domestic market and has gained a global sales network all over the world. There are over 40 technicians in its workshops, which cover 20000m². Over 30 years of experience and its 15-person R&D Team make its machine design unique; OEM & ODM are welcome.

BBM MASCHINENBAU UND VERTRIEBS **STAND NUMBER: 3A01**

BBM - Innovative and reliable Extrusion Blow Molding machine manufacturer since 1997. Its strong focus on electric machines with sustainably continuous improvement and development, tailored to clients' specifics, stands it out. Along with its partners, the company provides automated lube filling/ packaging lines, ISBM PET machines, and other related ancillary services. BBM is solution-driven, and its expertise sustains a long-lasting partnership.

BESTCOM GLOBAL INDUSTRY NIG. LTD **STAND NUMBER: 3A10**

BESTCOM is a trusted supplier specializing in providing high-quality production parts, accessories, raw materials, and equipment from China to factories across Nigeria. As a China-based company with a local Nigerian office, it leverages its deep expertise of the Chinese market to source reliable products at competitive prices while ensuring strict quality control and good customer service in Nigeria. BESTCOM is your reliable sourcing partner!

CHANGSHENGDA MACHINERY (ZHEJIANG) CO., LTD **STAND NUMBER: 1B04**

Injection molding machines, blow molding machines, extrusion blow molding machines, and all kinds of mold-making machines.

CHINA NANSHENG SCREW MACHINERY **STAND NUMBER: 2C10**

The company has been dedicated to the research and development of screw barrels, reducers, and other components for injection molding machines and extruders.

DELLA TOFFOLA **STAND NUMBER: 1B10**

Top player in the design and manufacture of advanced technologies for the Wine and Beverage Industry.

ELOF HANSSON TRADE **STAND NUMBER: 3A12**

Elof Hansson Trade sources forest products from leading suppliers in Europe, Asia, and the Americas for customers all over the world. Its expertise is in pulp, paper, stocklots, building materials, and machinery. They do not just sell a product, but rather an added-value package of financing, risk management, shipping, and compliance. Simply put, they provide business expertise that makes life easier for their partners.

FILMATIC PACKAGING SYSTEMS (PTY) LTD **STAND NUMBER: 3A05**

A trusted supplier of turnkey filling and packaging solutions for dairy, edible oil, water, beverage, and food manufacturers.

As one of South Africa's top packaging systems design and manufacturing companies, the company supplies packaging equipment that can accommodate packaging of all types of glass and plastic bottles, sachets, tubs, cups, etc.

GDXL PRECISE MACHINERY CO., LTD. **STAND NUMBER: 1K20**

GDXL is a professional PET packaging engineering solutions provider that has been dedicating itself to the Food and Beverage Industry for over 30 years. The company's precise mold products and premium services have been delivered to more than 800 customers in over 70 countries. GDXL's capabilities in both R&D and manufacturing have created value to the industry.

GETTEL INC. **STAND NUMBER: 3A08**

Gettel High Tech Materials Co. LTD is a large private joint-stock enterprise mainly engaged in the R&D, production, and sales of BOPP and other plastic films. The products are widely used in food, daily chemicals, industry, consumer goods, medicine, and other fields. It is a well-known enterprise in the world BOPP film industry. So far, Gettel has built seven industrial bases in Zhejiang, Jiangsu, Anhui, Chongqing, Liaoning, Guizhou, and other places, equipped with 16 BOPP production lines imported from Germany and France and 1 BOPA automatic production line, and has iteratively upgraded BOPP, BOPA, CPP, BOPE, BOPET, and other film products.

AYUSH INTERNATIONAL LTD **STAND NUMBER: 4B03**

Ayush International LTD is registered under the Corporate Affairs Commission under RC 1345896. The company is into industrial machinery and equipment, serving various industries with its top LEADTECH coding and marking printers, offering highly efficient solutions to its esteemed users. Please visit its websites to have more ideas on our products and services, and feel free to contact them during the show at Stand 4B03 to see the live demos of its reliable industrial printers.

SPECIAL FEATURE INTERVIEW – NILPETER (STAND NO: 3A17)

"WE ARE ALWAYS READY TO WORK WITH CUSTOMERS TO FIND THE RIGHT MACHINE, AT THE RIGHT PRICE FOR THEM, SO COME AND TALK TO US."

Nilpeter is the world-leading manufacturer of flexo, offset, and digital printing solutions for narrow and mid-web labels and flexible packaging. With a strong focus on technology and innovation, the Danish company helps Printers optimise their production efficiency and provide them with great new opportunities in the printing process, hence adding value to help them gain a competitive advantage. In this **SPECIAL FEATURE INTERVIEW** with **Mr. Thomas Anderson** – Area Sales Manager, **PROPAK West Africa DAILY** reveals how, with over 100 years of engineering expertise and in-depth global industry knowledge, Nilpeter delivers outstanding flexibility, quality, and cost effectiveness. Read an excerpt of the exclusive interview below to also find out why Nilpeter is your printing partner:

YOU'VE BEEN A REGULAR EXHIBITOR AT BOTH PROPAK AFRICA AND PROPAK EAST AFRICA. TELL US WHY NILPETER CHOSE PROPAK BRAND AS PARTNER AND SPECIFICALLY, WHAT INFORMED YOUR DECISION FOR YOUR PROPAK WEST AFRICA DEBUT THIS YEAR?

This is not Nilpeter's first PROPAK West Africa. We exhibited at the show in 2022 together with a partner whom we unfortunately lost. After that, we had to re-focus on what we do in West Africa.

Mr. Thomas Anderson, Area Sales Manager - Nilpeter

We are now ready to strengthen our presence in West Africa again, and with that, we are back at PROPAK West Africa. We see great potential for labels and flexible packaging in Nigeria and the rest of West Africa, and hope for PROPAK to be the show that helps us convert our increased activity to more Nilpeter installations.

WITH SOME OF YOUR MACHINES PRESENTLY INSTALLED AND RUNNING IN SOME PRESSES IN NIGERIA, WHAT HAVE BEEN SOME OF THE CHALLENGES OF OPERATIONS, SERVICE SUPPORT, ETC., AND HOW HAVE YOU RESOLVED THESE ISSUES?

Nilpeter has a strong after-sales support team, both online and on-site. Our online hotline is available 24/7, 365 days a year. In support of the hotline, we also have technicians travelling to the region on a regular basis.

AS A WORLD-LEADING MANUFACTURER OF FLEXO, OFFSET, AND DIGITAL PRINTING SOLUTIONS FOR NARROW AND MID-WEB LABELS AND FLEXIBLE PACKAGING, WHAT WILL BE YOUR STAR PRODUCT AT PROPAK WEST AFRICA AND WHY?

Our new FB press will be our strongest press for markets in West Africa. It has a lot of the features of our renowned FA-Line, but with a lower price tag. We will exhibit this at the upcoming Label Expo in Barcelona and have already sold several of this new model in other parts of Africa.

ACQUIRING BRAND-NEW PRESSES CAN BE HIGHLY CAPITAL-INTENSIVE, AMONG OTHER FACTORS, FOR A SMALL/MEDIUM-SCALE PRINT & ALLIED BUSINESS. TELL US ABOUT NILPETER'S PRE-OWNED PROGRAM AND WHY PRINTING COMPANIES SHOULD TAKE ADVANTAGE OF IT?

Pre-owned equipment can be a tough product to buy, especially for a small company. There is obviously a price advantage over new equipment, but if you buy from the wrong company, then you may end up with a machine that doesn't do what you have been promised. At Nilpeter, we have created a dedicated pre-owned team that reconditions machines and ensures they are what we promise. We supply our pre-owned equipment with installation, training, and warranty, so any buyer can have 100% confidence that they will get a machine that does what it is meant to.

TODAY, SUSTAINABILITY IS ONE OF THE BIGGEST ISSUES DRIVING

INVESTMENT. HOW ARE NILPETER MACHINES DRIVING SUSTAINABILITY QUESTIONS IN TERMS OF CARBON EMISSIONS, WASTE REDUCTION, ENERGY COST, AND WORK EFFICIENCY, AMONG OTHERS?

UV drying systems are what draw the most energy on a press, and we have worked with a number of UV system manufacturers, so we can offer more energy-efficient LED drying systems. In addition, being one of the most automated Press makers in the industry, Nilpeter has always given prime importance to optimize the servo motors and other related electronics to its best. This fine-tuning of the Key energy driving parts in the press allows the press to run at the minimum possible power. Thanks to our advanced registration and automation modules, which help any converter run short-run jobs with extremely low wastage during setup. Any repeat jobs can be recalled with the press of a button, and therefore almost zero wastage, which is a great contribution to global sustainability.

ARE THERE SPECIALS, PROMOS, OR DISCOUNTS THAT YOU'RE OFFERING TO YOUR CLIENTS AT PROPAK WEST AFRICA 2025?

We are always ready to work with customers to find the right machine, at the right price for them, so come and talk to us. We also offer assistance with financing, provided that customers meet certain requirements. In general, we are flexible, and arrangements can be tailored in many different ways to ensure all needs are met.

DO YOU HAVE AN ESTABLISHED OFFICE OR REPS IN NIGERIA/ WEST AFRICA TO ATTEND TO YOUR CUSTOMERS' NEEDS AFTER THE SHOW, AND WHERE ARE THEY BASED?

Nilpeter's Dubai office currently handles East and West Africa, with a specialized sales and after-sales service team that frequently travels to these areas. In the long term, we intend to have a local engineer to support our customers.

WHAT ASSURANCE ARE YOU GIVING YOUR CUSTOMERS THIS 2025 AND BEYOND TO GUARANTEE YOUR COMMITMENT TO THEIR NEEDS ANYTIME, ANY DAY?

With three manufacturing facilities and more than thirty sales and service locations worldwide, Nilpeter is a 106-year-old company. Therefore, it is quite easy to approach Nilpeter from anywhere in the world because we are widely accessible. As an engineering firm, we always guarantee our customers after-sales service with our dedicated

engineer visits and round-the-clock hotline assistance. We do this not only for new presses, but also for older models, so Nilpeter customers can have the confidence that when they buy a Nilpeter, it will last.

ANY NEWS OR INFORMATION YOU WOULD LIKE TO ADD?

While PROPAK West Africa is taking place, we are installing a classic Nilpeter FB in Lagos.

FINALLY, WHAT ARE YOUR EXPECTATIONS FROM PROPAK WEST AFRICA 2025?

We expect to get to know new converters of labels and flexible packaging just as we have at all of the other shows we have exhibited at, across Africa, in 2025.

THANK YOU FOR YOUR TIME.

You're welcome.

SPECIAL FEATURE INTERVIEW – ANKAN GRAPHICS (STAND NO: 2C01)

"WE PROVIDE FULL LIFECYCLE SUPPORT, FROM INITIAL CONSULTATION THROUGH TO OPERATOR TRAINING, PREVENTIVE MAINTENANCE, AND REGULAR UPGRADES"

Ankan Graphics LTD is a leading supplier and distributor of printing, packaging, and corrugation machinery and equipment in Nigeria. As the exclusive partner for **Autoprint Machinery**, the company works closely with international companies such as **Shandong Bright Ink**, **Zhongshan Changjian Medicine Packaging Technology**, **Hontec Industries**, and **Wenzhou Youbond Machinery**. Speaking with **Mr. Kaleeswaran Nadar**, the Managing Director, **PROPAK West Africa DAILY** discovers that the forward-looking company provides a comprehensive turnkey strategy that covers offset presses, flexo lines, digital and corrugation systems, inks, packaging solutions, consumables, and after-sales service. Check out the exclusive **SPECIAL FEATURE INTERVIEW** in the excerpt below to discover how Ankan Graphics can be your one-stop solution provider for reliable, efficient, and sustainable operations:

WHY IS A PHYSICAL EXHIBITION LIKE PROPAK WEST AFRICA 2025 A STRATEGIC CHOICE FOR ANKAN GRAPHICS?

While digital tools are useful, the printing and packaging industry depends on seeing real results. At PROPAK West Africa 2025, we will demonstrate the Autoprint Knight live, giving visitors the chance to evaluate its speed, print quality, and operational ease directly. The exhibition is also a platform where our global partners, including **Autoprint Machinery Manufacturers Pvt. LTD**, **Shandong Bright Ink Co., LTD.**, **Zhongshan Changjian Medicine Packaging Technology Co., LTD.**, **Hontec Industries China LTD.**, and **Wenzhou Youbond Machinery Co., LTD.** will join us to share their expertise. Together with these partners, we present a strong turnkey offering that covers machinery, consumables, and integrated solutions for the West African market.

Mr. Kaleeswaran Nadar,
Managing Director - Ankan Graphics LTD

BEYOND INITIAL INSTALLATION, WHAT ARE THE MOST COMMON TECHNICAL CHALLENGES CUSTOMERS FACE, AND HOW IS YOUR AFTER-SALES SUPPORT STRUCTURED TO PROVIDE SOLUTIONS?

Customers often face challenges with machine performance across different substrates, efficient colour control, and minimizing downtime. Our turnkey support system addresses this through proper installation, operator training, preventive maintenance, and a strong local stock of genuine spare parts. We also provide remote diagnostics and on-site technical assistance, ensuring customers enjoy continuous productivity.

AS A REPRESENTATIVE FOR TOP-TIER EQUIPMENT MANUFACTURERS, WHICH SPECIFIC MACHINES WILL BE THE CORNERSTONE OF YOUR EXHIBIT AT PROPAK WEST AFRICA, AND WHAT ARE THEIR KEY TECHNICAL SPECIFICATIONS?

The highlight of our exhibit will be the Autoprint Knight, a single colour offset press capable of 1,500 to 6,000 impressions per hour. Compact, durable, and easy to operate, it is well-suited for short to medium print runs and is designed for consistent output with minimal maintenance. We will also showcase the Autoprint 1520 7K, another single-colour press designed for up to 7,000 impressions per hour, offering strong reliability and stable sheet transfer. Both machines are in stock in Nigeria, available for immediate deployment as part of our turnkey packages.

HIGH-PERFORMANCE PRESSES REPRESENT A MAJOR CAPITAL EXPENDITURE. COULD YOU ELABORATE ON THE TECHNICAL REFURBISHMENT PROCESS FOR YOUR CERTIFIED PRE-OWNED MACHINES?

Our certified pre-owned program gives clients access to quality machines at a lower investment. Each press undergoes a thorough inspection, replacement of worn parts with genuine OEM spares, recalibration to factory standards, and software updates where required. Delivered as part of our turnkey solutions, they come with a warranty and local technical support, offering customers confidence in both performance and after-sales service.

SUSTAINABILITY IS NOW A KEY PERFORMANCE INDICATOR. HOW DO YOUR MACHINES TECHNICALLY CONTRIBUTE TO REDUCING ENVIRONMENTAL IMPACT IN TERMS OF WASTE, ENERGY, AND EMISSIONS?

Our partner brands focus on energy efficiency and waste reduction through faster make-ready, reduced paper wastage, and optimized ink usage. Features like efficient motors and optional low-energy curing

systems help cut power consumption significantly. By encouraging the use of UV and water-based inks, we also reduce volatile emissions, making our solutions environmentally responsible while remaining cost-efficient.

WILL YOU BE OFFERING ANY TECHNICALLY FOCUSED INCENTIVES OR PACKAGES FOR CLIENTS COMMITTING TO A PURCHASE AT PROPAK WEST AFRICA 2025?

Yes, clients who confirm orders during the exhibition will benefit from special discounts, flexible payment options, and added value through free installation and training. These incentives are designed to make our turnkey offering even more accessible to businesses looking to upgrade their production capacity.

WHAT TECHNICAL ASSURANCES CAN CUSTOMERS EXPECT FROM ANKAN GRAPHICS AS A LONG-TERM PARTNER IN 2025 AND BEYOND?

We provide full lifecycle support, from initial consultation through to operator training, preventive maintenance, and regular upgrades. Customers can rely on us for the timely availability of genuine OEM parts, continuous technical support, and specialized training programs. Our turnkey approach ensures equipment keeps performing reliably for years, maximizing productivity and return on investment.

ARE THERE ANY NEW TECHNOLOGY PARTNERSHIPS OR PRODUCT LINES YOU PLAN TO ANNOUNCE?

Yes, we are expanding our consumables and spare parts portfolio, including high-quality rollers, polymer plates, and doctor blades, to provide more complete solutions for our customers. This complements our turnkey strategy by ensuring clients have access to both equipment and the essential components required for smooth operations.

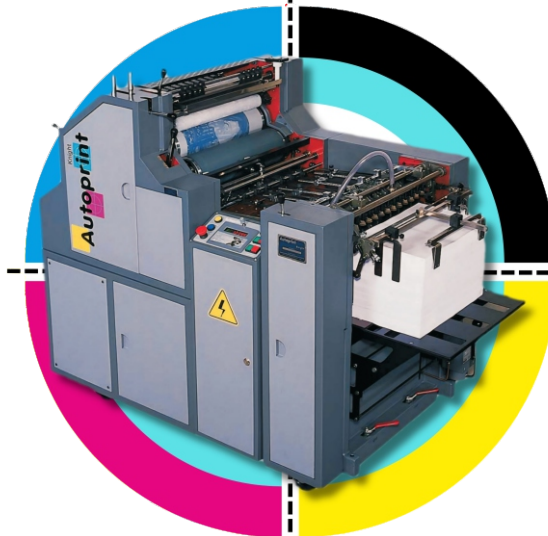

FINALLY, WHAT ARE YOUR PRIMARY TECHNICAL AND BUSINESS OBJECTIVES FOR PROPAK WEST AFRICA 2025?

Our objective is to connect with customers, demonstrate the Autoprint Knight live, and highlight how our turnkey solutions can transform production. By having our partners **Autoprint Machinery Manufacturers**, **Shandong Bright Ink**, **Zhongshan Changjian**, **Hontec Industries**, and **Wenzhou Youbond** with us at the show, we will provide visitors with direct access to international expertise in offset machinery, inks, pharmaceutical packaging, flexographic technology, and corrugation solutions. This combined presence makes our

stand a hub for complete, end-to-end solutions.

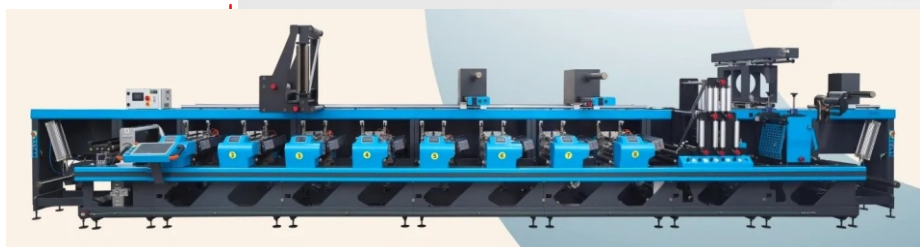

THANK YOU FOR YOUR TIME.

You're welcome.

SPECIAL FEATURE INTERVIEW – AFROPACK GROUP (STAND NO: 3B01)

“WE OFFER END-TO-END SOLUTIONS THAT BEGIN WITH STRATEGIC CONSULTANCY”

Afropack Group offers fully engineered, integrated processing and packaging solutions. From filling systems and processing equipment for beverages to preparation and packaging in glass, PET bottles, or cans for beer, wine, spirits, water, and fruit juice, as well as labeling machines, Afropack delivers dependable, high-performance systems designed to meet your production needs. In this exclusive **SPECIAL FEATURE INTERVIEW** with Afropack Group Managing Director – **Mr. Daniel Njoroge**, **PROPAK West Africa DAILY** unearths the firm's innovative, turnkey solutions, and comprehensive range of front and end-of-line equipment for industries such as food and beverage, home care, pet food, and personal care in the excerpt below:

YOU'VE BEEN A CONSISTENT EXHIBITOR AT PROPAK EAST AFRICA. TELL WHY AFROPACK CHOSE PROPAK BRAND AS PARTNER AND SPECIFICALLY, WHAT INFORMED YOUR DECISION FOR YOUR PROPAK WEST AFRICA DEBUT?

At Afropack, we have always believed in meeting our customers where they are, whether in East, West, or Southern Africa. PROPAK has consistently proven itself as a high-impact platform that connects us with the right decision-makers, innovators, and industry leaders. Our long-standing participation in

Mr. Daniel Njoroge – MD, Afropack Group

PROPAK East Africa has delivered exceptional value in terms of visibility, quality leads, and long-term partnerships.

Our decision to exhibit at PROPAK West Africa was driven by the region's remarkable industrial growth, particularly in the packaging, processing, and manufacturing sectors. Nigeria and the broader West African market are experiencing a surge in demand for modern, efficient, and sustainable packaging solutions. We see this as the perfect opportunity to bring our world-class technology and expertise to a region brimming with potential.

YOU'RE A KNOWN FORCE IN THE SUPPLY, INSTALLATION, AND SERVICING OF DOSING AND FILLING MACHINES FOR LIQUID PRODUCTS IN EAST AFRICA. WHAT WILL BE YOUR STAR PRODUCT AT PROPAK WEST AFRICA AND WHY?

Our star product at PROPAK West Africa will be our **high-precision dosing and filling machines for liquid products**. These machines have earned a strong reputation in East Africa for their ability to handle liquids of varying viscosities from water-light beverages to thick syrups and creams with unmatched accuracy and efficiency. They offer a combination of speed, reliability, and adaptability, ensuring production targets are met without compromising product quality. Their low maintenance requirements and customizable configurations make them an ideal choice for producers who value both performance and operational efficiency.

AS A SUPPLIER OF A WIDE RANGE OF SOLUTIONS FROM CONSULTANCY TO TURNKEY PACKAGING PROJECTS FOR THE PHARMA, FOOD, AND CHEMICAL INDUSTRIES, AMONG OTHERS, WHAT MAKES YOUR PRODUCT OR SERVICE OFFERINGS DIFFERENT FROM THE COMPETITION?

Afropack is more than a supplier; we are a partner. We offer **end-to-end solutions** that begin with strategic consultancy and continue long after a project is commissioned. All our solutions are 100% designed and manufactured by the world's leading machinery makers in Italy, ensuring the highest quality standards. Our edge lies in:

- **Comprehensive project support** from concept to completion,
- **Unmatched technical expertise** with ongoing customer training and support,
- **Innovation-focused approach** with food technologists and engineers helping clients develop and improve products, and
- **Commitment to sustainability** through efficient, environmentally responsible technology.

We also revisit the clients periodically to ensure that everything is running smoothly, for it is no longer a client-client basis, but a friendship based on mutual trust.

ARE THERE SPECIALS, PROMOS, OR DISCOUNTS THAT YOU'RE OFFERING TO YOUR CLIENTS AT PROPAK WEST AFRICA 2025?

Yes. We will be offering **exclusive exhibition-only discounts**, free on-site technical consultations, and priority booking for installations and training to all visitors who engage with us at PROPAK West Africa 2025. Our team will be ready to discuss tailor-made solutions at **Stand 3B01**.

DO YOU HAVE AN ESTABLISHED OFFICE OR REPS IN NIGERIA/WEST AFRICA TO ATTEND TO YOUR CUSTOMERS' NEEDS AFTER THE SHOW, AND WHERE ARE THEY BASED?

Yes. We have established a dedicated presence in West Africa through our local office, with Sales and Local Engineers trained in our facilities in Europe, ready to assist 24/7. This ensures that our clients in the region receive rapid, on-the-ground support, seamless communication, and the same world-class service standards they would expect anywhere in the world.

WHAT ASSURANCE ARE YOU GIVING YOUR CUSTOMERS THIS 2025 AND BEYOND TO GUARANTEE YOUR COMMITMENT TO THEIR NEEDS ANYTIME, ANY DAY?

Our assurance is straightforward: **Afropack will always be by your side**. We are committed to:

- **Supportive technical support** through a dedicated response team,
- **Fast spare parts delivery** to minimize downtime,
- **Continuous training** to empower our customers' teams, and
- **Future-ready solutions** that evolve with industry needs.

This is not just a promise – it is the foundation of how we do business.

ANY NEWS OR INFORMATION YOU WOULD LIKE TO ADD?

In 2025, Afropack is expanding its product portfolio with new **smart automation and eco-friendly packaging solutions**. These innovations are designed to reduce environmental impact, improve operational efficiency, and help African businesses compete globally while meeting sustainability targets.

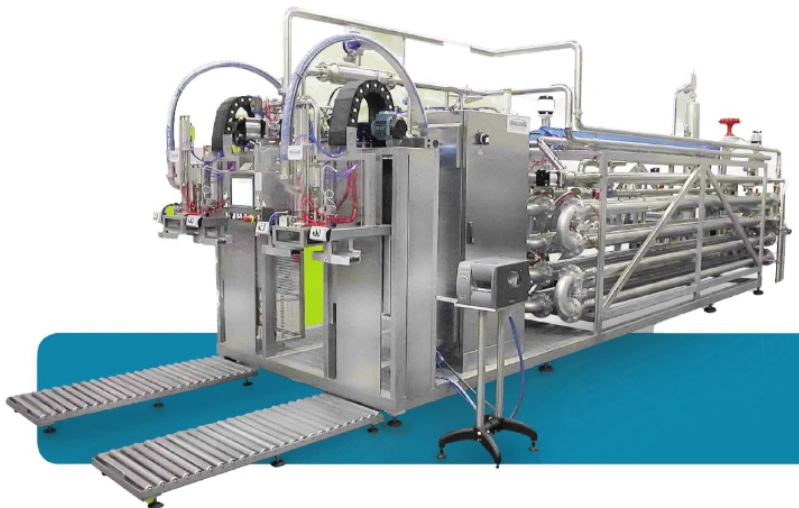

FINALLY, WHAT ARE YOUR EXPECTATIONS FROM PROPAK WEST AFRICA 2025?

We look forward to connecting with key industry leaders, showcasing our latest innovations, and building strong partnerships that contribute to West Africa's growing manufacturing and

packaging sectors. We also aim to gain valuable insights into the specific needs of the West African market so we can continue to tailor our solutions for maximum impact.

THANK YOU FOR YOUR TIME.

You're welcome.

BEVERAGE FILLING SOLUTIONS FROM CLEVERTECH AND CORFILL

WRAPPING SYSTEMS

PALLET LABELLING

DEPALLETIZATION FOR
REAMS OF BOXES

BOX FORMERS

CARTONING
MACHINES

BOX CLOSERS

Cleverttech provides fully integrated Front and End-of-Line solutions designed to maximize efficiency, reliability, and automation in modern packaging lines. These systems connect seamlessly with production processes, ensuring smooth product handling from raw materials to finished, ready-to-ship pallets.

The portfolio covers every stage of the line:

Front-of-Line Depalletization – automated unloading of products, containers, or packaging materials at the start of the line, ensuring consistent flow and reduced manual handling.

Depalletization for Reams of Boxes – specialized systems for efficient handling of bulk cartons and packaging material, streamlining supply to downstream processes.

Box Formers – precision equipment for automatically erecting boxes, guaranteeing uniformity and speed in packaging operations.

Cartoning Machines – advanced cartoning solutions for placing products into cartons with accuracy, speed, and flexibility across multiple industries.

Box Closers – secure and reliable sealing of cartons, ensuring product safety and preparation for logistics.

Palletization Systems – robotic and automatic systems for stacking products efficiently onto pallets, optimized for stability and load integrity.

Wrapping Systems – high-performance stretch and shrink wrapping technologies to protect goods during transport and storage.

Pallet Labelling – integrated solutions for precise and compliant labelling, ensuring full traceability and logistics efficiency.

By combining these systems into a single, intelligent workflow, Cleverttech ensures maximum uptime, reduced labor costs, traceability, and superior product protection. Designed with flexibility in mind, our solutions adapt to different industries—food & beverage, pharmaceuticals, chemicals, and consumer goods—delivering both performance and sustainability.

Corfill International -

Corfill International is a leading Italian company with a rich heritage of over 50 years in designing and manufacturing advanced filling machines and complete bottling plants for the global beverage industry. The company is a benchmark for quality and technological innovation, providing tailored solutions for a wide range of liquid products.

Core Competencies:

Advanced Technology: Corfill specializes in cutting-edge filling solutions for glass, PET, and aluminum containers. Their product portfolio is built on a foundation of continuous research and development.

Patented Innovation: The company holds a patent for its latest-generation electro-pneumatic filling valve (ELP), a key innovation that automatically regulates the product level in bottles, drastically reducing waste of both product and inert gases.

In-house Production: With 95% of its components manufactured in-house, Corfill maintains strict quality control and offers a high degree of customization to meet specific customer needs.

Key Product Lines:

SARA Isobaric Fillers: A versatile series of machines designed to handle both carbonated and still products, available for PET, glass, and can containers.

NORA Gravity Fillers: This family of fillers is engineered for flat products, capable of handling filling temperatures from ambient up to 85°C.

MIA Light Pressure Fillers: A modern filler line for PET and glass containers.

Global Reach & Service:

Corfill is a trusted partner for bottlers worldwide, with a strong presence in developing markets across Asia, the Middle East, and Africa. The company prides itself on its reliable performance, prompt after-sales support, and a commitment to providing cost-effective, low-maintenance solutions. They also create specialized solutions, such as mobile bottling plants on trucks, for flexible operations.

Established in 2010, under the leadership of well well-experienced Team, **Leo Precision** is committed to providing reliable, productive, and profitable packaging solutions. Leo Precision is operating from the state-of-the-art manufacturing facility, spread over 150,000 sq ft, located in the industrial hub of Silvassa in Western India, and is equipped with over 50 cutting-edge CNC Machines. Whether you are a newbie willing to shape your creativity or a well-established business, the firm has a long history of adding value to our customers and has delighted clients in more than 40 countries.

Its customer-centric approach to all decision-making processes, along with advanced technical capabilities, gives us an edge over our contemporaries. With growing demand, they are continuously enhancing their world-class production capacity at a significant pace. Its belief in a strong Team is reflected in its talented and knowledgeable Team.

They encourage you to live and feel the Leo's way!

MALLCOM GLOBAL HIEIGHETTS LTD
STAND NUMBER: 4C01

MALLCOM GLOBAL HIEIGHETTS LTD is a Nigeria-based distributor of high-quality personal protective equipment (PPE), committed to workplace safety and compliance. They partner with **Mallcom India**, a leading manufacturer of CE and ANSI-certified PPE used across more than 50 countries. Therefore, they provide a complete range of safety gear across industries - ensuring protection, comfort, and durability on the job site.

MIELE S.P.A.
STAND NUMBER: 3A19

Miele SpA is a well-established, internationally recognised leader in the vertical form fill and seal business, with decades of experience and many satisfied customers throughout the world. They provide a full range of solutions for all your packaging requirements.

MIHO INSPECTION SYSTEM NIGERIA LTD
STAND NUMBER: 3F03

MIHOINSPEKTIONSSYSTEME is a global company and has been one of the leading providers of inspection technology in the beverage filling industry and return logistics for over 45 years, thanks to a series of pioneering innovations: the first side-wall inspection unit with phototransistors, 90° bottle-rotation, the continuous use of maintenance-friendly LEDs – all groundbreaking innovations from miho!

MONIA GROUP
STAND NUMBER: 3F02

Monia Group is a supplier of offset paper, self-adhesive label paper & printing consumables in both offset and flexo.

NBG PRINTOGRAPHIC MACHINERY COMPANY
STAND NUMBER: 2A08

Established in 1990, **NBG Printographic Machinery Co (P) LTD** is a leading manufacturer of printing & converting machines. An ISO 9001-2000 certified company with more than 1000 installations across India and 20 countries worldwide. A large number of repeat customers ensures the consistent performance of NGB products.

Some of the best brains are engaged in designing NGB products using the latest 3D software. Equipped with the latest CNC, VMC machines, and the latest equipment, the manufacturing division is capable of manufacturing the most complex designs consistently, and the quality division is equipped with the latest testing tools and a CNC Coordinate Measuring Machine (maker: Zeiss) to ensure all parts and machines are manufactured as per the international standards. The STARFlex roll-fed flexo printing machine is a product of years of research and development by the team with the latest technologies, including modular construction, top loading of plate cylinders, tool-less ink tray loading, pneumatics, and servo drives for easy operation, and HMI for centralised controls. Narrow Web STARFlex printing machine is available in the widths of 370 & 500 mm with a maximum design speed of 200 m/min.

The sturdy structure and ergonomic design ensure consistent performance of the machine with longevity and high performance in multiple substrates. Full & semi-servo servo systems make the machine suitable for a wide range of substrates with both tension control and auto registration control (optional). STARFlex is suitable for printing and making a wide range of products like labels (Pharma, Food, FMCG, Wine and Spirits, etc.), Tags, Flexible Packaging, Security Printing, and many more.

NINGBO QIMING MACHINERY MANUFACTURING CO. LTD
STAND NUMBER: 2D06

MEPER has successfully delivered and installed more than 2,000 sets of extrusion blow molding machines worldwide. Moreover, we have established quick-response service teams and partners in 5 major continents.

NISSEI ASB AFRICA LTD
STAND NUMBER: 1H02

Nissei ASB Machine Co., Ltd (Head office: Komoro-shi, Nagano-ken, Japan), a world-leading manufacturer of machines and molds for one-step injection stretch blow molding (ISBM) of PET and other plastics (RPET, PP, PEN, PLA, TRITAN, PC, PS, PES, PPSU, HDPE, LDPE, etc.). The company was established in 1978, and ASB is world famous for versatility & customised solutions.

Nissei ASB Africa LTD is the representative office of Nissei ASB FZE, Dubai, located in Lagos, Nigeria, to support ASB customers in Nigeria & West Africa territories. Email: anil.mehra@nisseiasb.com

NU-VU CONAIR PVT. LTD**STAND NUMBER: 1K04**

Leading manufacturer of Plastic Auxiliary Equipment such as central vacuum conveying systems, drying systems, gravimetric blending systems, chillers and mould temperature control units, adiabatic cooling towers, crystallizers, belt conveyors, granulators and more for polymer processors.

PAKONA ENGINEERS (INDIA) PVT LTD**STAND NUMBER: 1D05**

Manufacturers and Exporters of Packaging Machines

POLYGRAPH PRINTING TECHNOLOGIES LIMITED**STAND NUMBER: 3A19**

Manufacturers of premium high-speed Flexographic & Rotogravure printing equipment suitable for bio-degradable films, co-extruded films, laminates, PP woven sacks, aluminum foil, paper & other flexible packaging. Polygraph machinery is built to perform & deliver precision, durability, and performance, serving packaging needs across industries — from e-commerce to FMCG and everything in between.

PRINTBOX NIGERIA LTD**STAND NUMBER: 3B05**

PrintBox is a Packaging Solutions company specializing in printing of flexo packaging & mono cartons, pharma folding (leaflet), labels, foiling, embossing, matte pad printing, spot UV, texture UV printing, lamination, and window patching jobs.

PROXIMA**STAND NUMBER: 1F05**

Proxima International Limited offers technical consultancies for various industries like Food / Home and Personal Care / Pharma / Chemicals and Textiles, etc.

QUANTUM PACKAGING NIGERIA LTD**STAND NUMBER: 3C01**

Quantum - The highly reputed and credible packaging company in Nigeria, known for the wide range of products - Corrugated Packaging, Mono Cartons & Self Adhesive Labels with value addition. Facility at Agbara, Ogun State, that complied with international standards on Quality, Environment, and Food Safety, focusing on sustainable and renewable solutions for packaging products, which the world is embracing. Supply Chain Solutions with a high rate of OnTime Delivery and unmatched quality are the reason for the company's success.

RENOL POLYCHEM LTD**STAND NUMBER: 2G07**

Renol Polychem Limited is a trusted Indian manufacturer of high-quality masterbatches, fillers masterbatch, additives masterbatch & pigments, serving the global plastics industry since 2008. With state-of-the-art manufacturing, consistent quality, and a wide product portfolio, we deliver reliable solutions for applications in household products packaging, pipes, films, injection molding, roto molding, and many more. Its strong commitment to innovation, technical support, and customer satisfaction makes Renol a preferred partner across international markets.

ROYAL KAAK**STAND NUMBER: 1B27**

Royal Kaak, setting the standard since 1846. Kaak has been an international leader in stand-alone machines and complete bakery lines for 175 years — from silo to truck. A world in which craftsmanship and skills are key, but in which customer requirements also change and standards become ever higher. Constantly developing products and services for the world, moving with the market and often ahead of it, while always putting the interests of its customers first. No two bakeries are the same! That is not a problem for Kaak because it has all the technologies available in-house, which means that every bakery can turn to Kaak for machines and production lines in all conceivable sizes, designs, and capacities.

SACMI**STAND NUMBER: 1B09**

Sacmi, technological evolution since 1919. Sacmi Group heads over 80 companies in 30 countries that have achieved success in several business areas: from machines and complete plants for the ceramic, beverage, packaging, and food processing industries to process control solutions and quality control systems.

SAP ITALIA**STAND NUMBER: 1B10**

Technologies for beverage production and aseptic treatment of dairy products

SELO**STAND NUMBER: 3A15**

Selo designs and constructs process systems for the food and wet pet food industry. It offers an A to Z solution: projects are executed from the design phase up to the installation and configuration of the systems. Selo fully masters and takes care of all technological, automation, engineering, assembly, installation, and after-sales disciplines. Selo is the market leader in turnkey solutions of wet pet food systems based on steam tunnel technology. The selo process lines are state-of-the-art in regards to hygienic, efficient, and save on production costs while ensuring high quality standards.

SHANGHAI DASONG CORRUGATING ROLL CO., LTD**STAND NUMBER: 4A09**

Shanghai Dasong (RMM) is a specialist in corrugating roll manufacturing for over 30 years.

SILVI SRL**STAND NUMBER: 4A03**

Silvi Srl is a leading Italian provider of customized industrial automation solutions. With over 30 years of experience, the company specializes in designing, manufacturing, and installing automated lines across sectors like automotive, food & beverage, and pharmaceuticals. Operating globally, Silvi delivers innovative, efficient, and safe technologies that enhance productivity and streamline processes for clients worldwide.

SOCIETE DE COMPOUNDAGE NIGERIA LTD**STAND NUMBER: 1B15**

Colour Masterbatches, PET Masterbatches, White & Black Masterbatches, Filler Masterbatches & Additive Masterbatches.

SP ULTRAFLEX SYSTEMS PVT LTD**STAND NUMBER: 1F02**

SP Ultraflex offers the widest range of converting slitter rewinders globally, featuring 9 well-differentiated models with Duplex and Dual Turret Rewind options from 600 MPM to 1000 MPM speeds. SP's portfolio also includes Reversible Rewinders for web inspection and salvaging. With 4 decades of experience, SP's installation base spans 20+ countries across Asia, Africa, Europe, and North America.

OK PLAST LTD**STAND NUMBER: 1G08**

OK Plast is a leading and responsible manufacturer of Kitchenware, Home ware products, PET Products, and Plastic furniture. OK Plast is renowned for its trendsetting and functional products.

PENTAGON PLASTIC INDUSTRIES LTD**STAND NUMBER: 1B29**

Established in 2002, **Pentagon Plastic Industries LTD (PPIL)** is a leading manufacturer of high-quality, cost-effective plastic housewares, garden furniture, and rigid packaging solutions in Nigeria.

PRASAD GROUP OF COMPANIES**STAND NUMBER: 2F06**

Prasad Group of Companies started operations in 1984 for manufacturing post-extrusion equipment for the Plastic Industry. Today, Prasad has Asia's largest and most sophisticated infrastructure for manufacturing Plastic Auxiliary Equipment. Automation, sophistication, and upgradation of technology are the needs of the hour, and the company keeps itself fully updated to provide the same. Responding to the ever-growing demand of automation solutions, the team at Prasad is always focused on customer satisfaction, operational excellence, and above all, design innovation.

SPECIAL FEATURE ARTICLE – EXHIBITORS' SHOWCASES & PRODUCT LAUNCHES

NILPETER REVEALS THE ALL-NEW FB PRESS

PROPAK
WEST AFRICA 2025

nilpeter

World-leading manufacturer of flexo, offset, and digital printing solutions for narrow and mid-web labels and flexible packaging - **Nilpeter** is presenting the legendary **FB Press Line-up** at this year's **PROPAK West Africa**. PROPAK West Africa DAILY gathered that this new press is engineered to meet the increasing demands for automation and digitalisation in the printing sector. Available in both 14" and 17" models, key features of the new FB-14/-17 Flexo Press include:

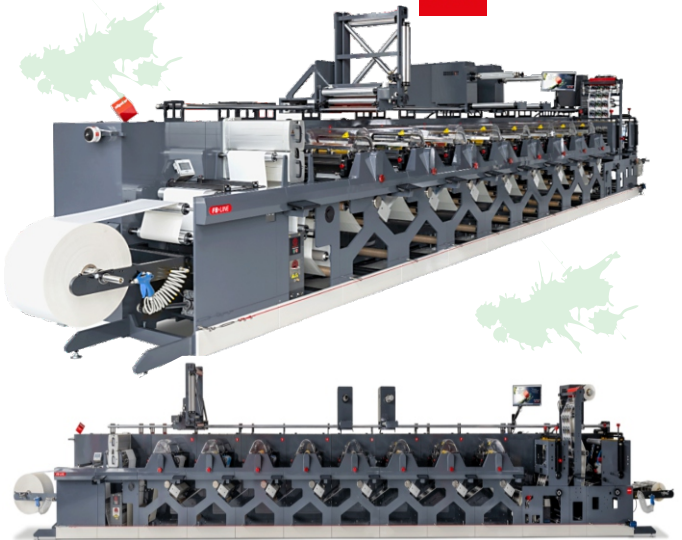

- **Control System Compatibility:** Integrates with the advanced Nilpeter PowerLink system for global online support.
- **Advanced Dual Servo Print Head:** Equipped with a dual servo print head for full 360-degree automatic register adjustment.
- **Superior Pre-Register Functionality:** Features a true pre-register system, providing great precision and reliability.
- **Versatile Substrate Handling:** The gearless design allows for handling a broad range of substrates from 15 to 300 microns.
- **Ideal for Multi-Substrate Printing:** Specifically designed for multi-substrate printing, including unsupported film, making it exceptionally suitable for diverse printing tasks.
- **Print Length Correction Capability:** Allows for print length corrections, enhancing the flexibility and

accuracy of print operations.

- **Increased Automation – Job Data Save Feature:** Enables easy recall and storage of print job parameters, promoting increased efficiency and precision.

If you're looking for a product positioned between Nilpeter's popular FB-Classic workhorse and its highly advanced FA-Line, then the all-new FB-Line is packed with a very high level of automation and operator friendliness, but at an investment level that is accessible to a broader segment. Visit Nilpeter's Stand No: 3A17 and meet **Mr. Thomas Anderson**, the Area Sales Manager, who revealed to PROPAK West Africa DAILY that the FB Press Line-up might be the best for the West African market as one is currently being installed in Lagos as the show goes on; "The new FB press will be our strongest press for markets in West Africa," he enthused.

Nilpeter is at Stand No: 3A17.

ANKAN GRAPHICS SHOWCASES THE POSSIBILITIES OF AUTOPRINT KNIGHT, A SINGLE COLOUR OFFSET PRESS

Leading supplier and distributor of printing, packaging, and corrugation machinery and equipment in Nigeria, **Ankan Graphics LTD** is highlighting the possibilities of the famous single-colour offset printing machine, **Autoprint Knight**.

Compact, feature-packed, and user-friendly, PROPAK West Africa DAILY discovers that Autoprint Knight is a single-colour offset printing machine that offers excellent multicolour quality at affordable prices. It comes with most of the features of a large offset, making it the perfect choice for small-sized Offset Printers wishing to upgrade from Cut Colours or Two Colours to high-quality multicolour jobs. For users who require printing solid colours with high speed and auto lubrication, or single colour offset printing in A3 size of business stationery like handbills, invoices, letterheads, vouchers, or other sharp colour designed jobs

such as visiting cards, or postcards, flyers, books, leaflets, paper shopping bags etc on substrates ranging from 30 to 300 gsm, including art paper and board, then the Autoprint Knight Single Colour Offset Printing Machine is your best choice.

According to Ankan Graphics LTD, Managing Director - **Mr. Kaleeswaran Nadar**, "the highlight of our exhibit will be the Autoprint Knight, a single colour offset press capable of 1,500 to 6,000 impressions per hour. Compact, durable, and easy to operate, it is well-suited for short to medium print runs and is designed for consistent output with minimal maintenance. We will also showcase the Autoprint 1520 7K, another single-colour press designed for up to 7,000 impressions per hour, offering strong reliability and stable sheet transfer. Both machines are in stock in Nigeria, available for immediate deployment as part of our turnkey packages."

Ankan Graphics LTD is at Stand No: 2C01

ANKAN GRAPHICS LTD

AFROPACK PRESENTS B.A.PROCESSING, CLEVERTECH, CORFILL, AND OTHER PARTNERS AT ITS PROPAK WEST AFRICA DEBUT

Making its debut at this year's **PROPAK West Africa**, bespoke turnkey solutions provider in such industries as food and beverage, home care, pet food, and personal care - **Afropack Group** is presently its wide range of carefully selected Original Equipment Manufacturers (OEMs) partners that offer fully engineered, integrated processing and packaging solutions in the region. From filling systems and processing equipment for beverages to preparation and packaging in glass, PET bottles, or cans for beer, wine, spirits, water, and fruit juice, as well as labeling machines, Afropack partners such as B.A.Processing, Cleverttech, and Corfill deliver dependable, high-performance systems designed to meet the industry's production needs.

"Our star products at PROPAK West Africa will be our high-precision dosing and filling machines for liquid products. These machines have earned a strong reputation in East Africa for their ability to handle liquids of varying viscosities from water-light beverages to thick syrups and creams with unmatched accuracy and efficiency. They offer a combination of speed, reliability, and adaptability, ensuring production targets are met without compromising product quality. Their low maintenance requirements and customizable configurations make them an ideal choice for producers who value both performance and operational efficiency," explained **Mr. Daniel Njoroge**, the Managing Director of **Afropack Group**.

Located in Parma, a city recognized worldwide as a Food Valley in the Food Sector, **B.A.Processing S.r.l.** recently acquired all the know-how and brand of Asepsystems S.r.l., recognized as one of the top inventors of aseptic fillers for aseptic bags. B.A.Processing thus produces aseptic filler for aseptic bag in many different types, and also produces sterilizer, evaporator, refiner, and other food processing equipment. From single machine to a complete line, the company's equipment is suitable for different applications such as fruit, concentrated fruit, puree, tea, coffee, milk, etc. Among others, its vegetable processing plants are suitable for

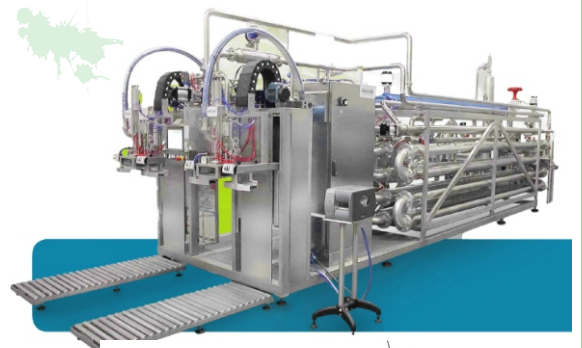

the production of vegetable pulp and preparations, concentrates, purees, and vegetables in cubes. If your desire is to process continental and tropical fruits, B.A.Processing thus offers machines suitable for the production of jams, clear juices, clear concentrated juices, fruit in cubes, natural and concentrated purees.

Cleverttech provides advanced automated filling and capping solutions for liquid products, including a range of machines for various industries such as food, beverage, and pharmaceuticals. Their offerings include semi-automatic, automatic, and integrated systems that handle the entire filling, capping, and sealing process. Customer-focused and holistic in its approach, Cleverttech develops long-lasting partnerships with its customers, helping them take on the challenges posed by the market with its integrated design approach that ensures we are all future-oriented. Not only that, its brands are guaranteed with the highest standards in terms of quality, safety, and reliability in order to set new records.

As an international point of reference in the sector of cutting-edge filling machines, **Corfill International Srl** is an Italian company with great experience in the design and construction of filling machines for glass, PET, and aluminum containers for the beverage industry and liquid products in general. For over 50 years, Corfill's constant technical development, high-quality, and high standards of service in producing content-filling machines for both independent and non-independent bottlers of medium and large size on a global scale have allowed the company to enter developing markets in such areas as Asia, the Middle East, and Africa.

At this year's PROPAK West Africa, Afropack is offering special on-the-spot discounts to clients who confirm their orders as Mr. Njoroge promised, "We will be offering exclusive exhibition-only

CORFILL
CORFILL INTERNATIONAL SRL
CLEVERTECH

Windmüller & Hölscher is the world's leader for machinery and systems for the manufacturing and converting of flexible packaging. The product portfolio includes high-performance machines for film extrusion, printing, and converting.

WUHAN RAYLI ENVIRONMENTAL MACHINERY CO., LTD
STAND NUMBER: 1B12

Wuhan Rayli is into Plastic Recycling Machines and has been manufacturing plastic recycling machines for the past 17 years.

YUYAO LVD AO PLASTIC & RUBBER MACHINERY CO LTD
STAND NUMBER: 4C05

Yuyao Lvdao Plastic and Rubber Machinery Co., LTD (Ningbo Lvhua Plastic and Rubber Machinery Industry & Trade Co., LTD) specializes in the production of plastic recycling machine lines with over 20 years of history in the Plastic Equipment Manufacturing Industry, hence a leading position. The company set up a factory in 1996, under the leadership of a professional Research and Development Team, down-to-earth, continuous exploration approach, according to the different characteristics of various plastic materials, to develop a batch of new products that meet the needs of customers. In August 2011, the branch company was set up in an area covering nearly 20,000 square meters, thus marking a leap forward in development. At the same time, it also added more advanced processing equipment and testing systems, creating a modern technology control centre. More importantly, the company introduced professional talents, reorganized the Research and Development Team, and laid a good foundation for the company's long-term development. At present, the equipment has many invention patents, through the ISO9001:2008 system certification, the prilling machine through CE Safety Certification, LDA series recycling machine is included in the 2007 National Torch Plan Project. In 2008, the company was rated as a Ningbo High-Tech Enterprise, and in 2009, the company undertook the National Innovation Fund Project. In 2011, it was once again approved as a high-tech enterprise and finished the National Fund Project. In 2013, it attended the K Show in Germany. And in 2015, the company was invited by CCTV for special coverage. In 2017, the company spent millions on metal laser cutting machines. In 2019, a special welding arm was introduced. Over the past twenty years, the company has always adhered to customer satisfaction, guided by the market trends, thereby making great contributions to China's Plastic Products Recycling Sector.
