### DAILY NEWS, REPORT & INSIGHTS AT THE SHOW

## PROPAK WEST AFRICA 2022 SETS TO MEET THE NEEDS OF THE MANUFACTURING SECTOR THROUGH TECHNOLOGICAL INNOVATION ON DISPLAY..... DISCOVER WHAT'S NEW IN YOUR SECTOR

As the doors of Landmark Centre, Lagos open to a three-day of live demonstration of innovative solutions, the needs of the manufacturing sector are set to be met at the leading exhibition and conference for the packaging, plastics, printing and processing industry - **PROPAK West Africa 2022**.

More so, this year's PROPAK West Africa (taking place over the next three days of **Tuesday 22, Wednesday 23** and **Thursday 24** of November 2022) will be the largest yet as more than 220

brands exhibiting across the entire three halls of purpose-built space at Landmark will be joined by thousands of visitors (like you) to discover latest innovations on display, network with like-minded individuals, and explore new business opportunities from industry professionals - all searching for innovative solutions, cutting-edge technology and invaluable insights within the manufacturing value-chain.

Without doubt, PROPAK West Africa has grown and adapted over the years to fit with the

needs and requests of industries it serves. Likewise, the leading international trade show has also cemented its position as the only event capable of providing the platform for all the industries stakeholders to come together. To this end, this year's PROPAK West Africa 2022 (the ninth in its series) is not only fully endorsed by the Industrial Development Department of Nigeria's

## **LEARN CUSTOMISED PRINT MACHINE OPERATION AND MAINTENANCE SKILLS FROM EXPERTS IN EUROPE**

### **COLOUR MANAGEMENT**

This bespoke Colour Management training is with course contents tailored to your level of knowledge, experience and ability - making sure you get the most out of the training that will extensively deal with ICC (International Colour Consortium) profile education for your particular device as well as basics of colour theory for RGB & CMYK; choosing ink & print process; and the principles of L\*a\*b according to the Commission Internationale de l'Eclairage (CIE) - all in a bid to help you identify colour inconsistencies for the best and cost-effective production workflow.

At the end of the practical Colour management training sessions, participants will be able to realistically perform colour simulation that can be applied across a workflow, allowing them to simulate print before committing. This exercise will not only save time throughout the design process but also cut down on wastage as colours will now be consistent and reliable.

### **MACHINE OPERATION & MAINTENANCE**

This practical-oriented training will show how print machinery works, and the role of the maintenance in ensuring proper operation and print profitability. Emphasis will be on Stress is laid on operator's skill development as well as machine diagnosis and troubleshooting for practical expertise in maintenance procedures.

At the end, participants will be able to perform basic maintenance functions such as machinery mounting; balancing; lubrication; bearings; power transmission; shaft alignment; seals; condition monitoring; troubleshooting; safety etc

### **PRINTHEAD REPAIR**

The printhead is a very sensitive, delicate and no doubt costly component of every printer that must be treated with the necessary care especially noting the fact that printhead is subject to wear and tear. This is why this hands-on training will show you recommended, yet practical steps to clean your print head; choosing the right media; how environmental conditions affect printheads; and OEM's endorsed printhead maintenance and repair procedures.

After the training, participants will be able to expertly maintain, repair, and prolong the service life of their printers' printheads. The aim of this skill acquisition is not only to improve operator's knowledge on printheads but most importantly empower them for added skills that would no doubt add value to our industry.

**FINALLY, WHAT ARE YOUR EXPECTATIONS FROM PROPAK WEST AFRICA 2022?**

Quality leads.

**THANK YOU FOR YOUR TIME.**

**TELL US ABOUT YOUR COMPANY?**

Epson is a Japanese multinational electronics company and one of the world's largest computer printers and information - and imaging-related equipment manufacturers.

**WHICH PRODUCTS OR SERVICES ARE YOU OFFERING TO THE MARKET AND WHY ARE THEY DIFFERENT FROM COMPETITION?**

We offer inkjet, dot matrix for consumers, business and industrial use, scanners, point of sale systems automation types of equipment. In printers, most players have followed a model of giving away the hardware at a low cost and charging heavily for the replacement ink. Epson decided to upend that model by making the initial hardware a little bit costlier, but the lifetime cost of ownership significantly lower, by cutting printer cartridge prices.
