DAILY NEWS, REPORT & INSIGHTS AT THE SHOW

OVER 200 COMPANIES SET FOR PROPAK WEST AFRICA 10TH ANNIVERSARY EDITION

Starting today, Tuesday 12 through to Thursday 14 September 2023, the region's largest exhibition for the packaging, plastics, printing and processing industries - **PROPAK West Africa** opens its doors for the 10th Anniversary Edition hosting more than 200 companies from across the world converging at Landmark Centre, Lagos Nigeria.

Since launching in Lagos in 2012, PROPAK West Africa has welcomed over 1,000 exhibitors and 25,000 visitors, bringing together industry stakeholders from all corners of the globe. This year will be no different with more than 5000 quality visitors traveling to Nigeria's commercial city of Lagos to meet with over 200

companies over a three-day celebration and discovery of innovative and latest products on the market with hands-on experience of working machines on displays from Afra Technical Concept, CIS Buro, Inuatom Automacao, Bole Machinery, MLT Pack and Unipack Engineering among others, all live on the exhibition floor.

This is further backed up with companies such as Blucher, Finepack

Industries, Miele, Piovan Gulf, Sacmi, Snetor, Windmoeller & Holscher and Yamato Scale among many others taking stands to showcase their latest products and services dedicated along manufacturing value-chain. And once again, Nigerian companies have a strong presence with companies including Ayush International, Beaumont Industrial, C.

Woermann, Fas Agro, Mercongraphic, OK Plast LTD, Process & Packaging, Sarsoli Colours, TetraPak West Africa and Vista International, all in attendance. Alongside these top-notch and world-renowned machines manufacturers and suppliers are unique pavilions from Taiwan, China, India and Egypt that will be supporting the over 23 other countries represented, thereby cementing PROPAK's position as West Africa's biggest and largest print & allied international exhibition.

George Pearson, Regional Director for the organisers, Afroset Montgomery said; "Reaching the 10th edition is a huge milestone and achievement for us and is testament to the tenacity and hard work that the manufacturing community puts in year on year to keep innovating and developing, in the face of the various challenges in Nigeria. PROPAK was setup to serve as meeting point and platform for the industry, we're looking forward to welcoming back many familiar faces as well as lots of new ones as the industry keeps driving forward".

PROPAK WEST AFRICA 2023 CONFERENCE

With the central theme: **"Strengthening the interlink between circular economy, finance and trade potentials in the plastic and packaging industry"**, PROPAK West Africa 2023 Conference Agenda has been worked on in partnership with KPMG Nigeria to align with what is happening across the sector and shed light on the opportunities available to companies adopting the mantra of the circular economy - in order to boost efficiencies within supply chains in a more sustainable way.

While KPMG Nigeria will be running the conference sessions focusing on those areas, PROPAK West Africa 2023 Conference sessions will also be looking into Smart Packaging and the role technology plays in helping the transition to greater efficiencies. Therefore, participants will once again have fantastic opportunity to gain exclusive market insights, learn about new technology trends and hear crucial advice on how to take their businesses to the next level especially on the need to address high operational cost, disruptions in quality material supply chain cycles,

environmental compatibility, resource conservation and waste reduction. Thus, issues around hot topics like Circular Economy, Climate Protection and Digitalisation will be strategically addressed by panel of industry experts during the conference programme.

However, due to the popularity of the conference sessions and the limited space available this year, you (as an intending participant) will need to register separately to attend the conference sessions, in addition to the exhibition registration that will provide you free access to the entire three halls of PROPAK West Africa 2023 show to meet the following exhibitors.

PRINT BOX
NIGERIA LTD

THE VISION

We aim to cater to the needs of brand leaders across industries such as FMCG, Food & Beverages, Pharmaceutical, Electronic, Retail, Apparels and other white goods industries. Our experienced personnel with 25 or more years of experience in this industry offer expert advice and ensure high quality standards and combine their technical expertise with market insights to deliver customized solutions that exceed customer expectations.

THE MISSIONS

Print Box produces high quality folding cartons from our manufacturing unit. Our domain knowledge across industries allows us to work with clients to understand their specific folding carton needs and industry requirements to deliver customized solutions. We offer a complete range of carton styles complemented by a wide variety of print finishes such as lamination, foiling, embossing, window patching and security features.

Our capabilities include printing high quality graphics on a range of substrates including metallized and holographic films. In addition, our versatile gluing machines can work with complex structures ideal for even high speed automatic cartoning machines.

Food packaging plays a crucial role in protecting and preserving the quality of food products. It ensures safety, extends shelf life, and provides important information to consumers. Sustainable and eco-friendly packaging solutions are being sought to minimize environmental impact and promote a greener future.

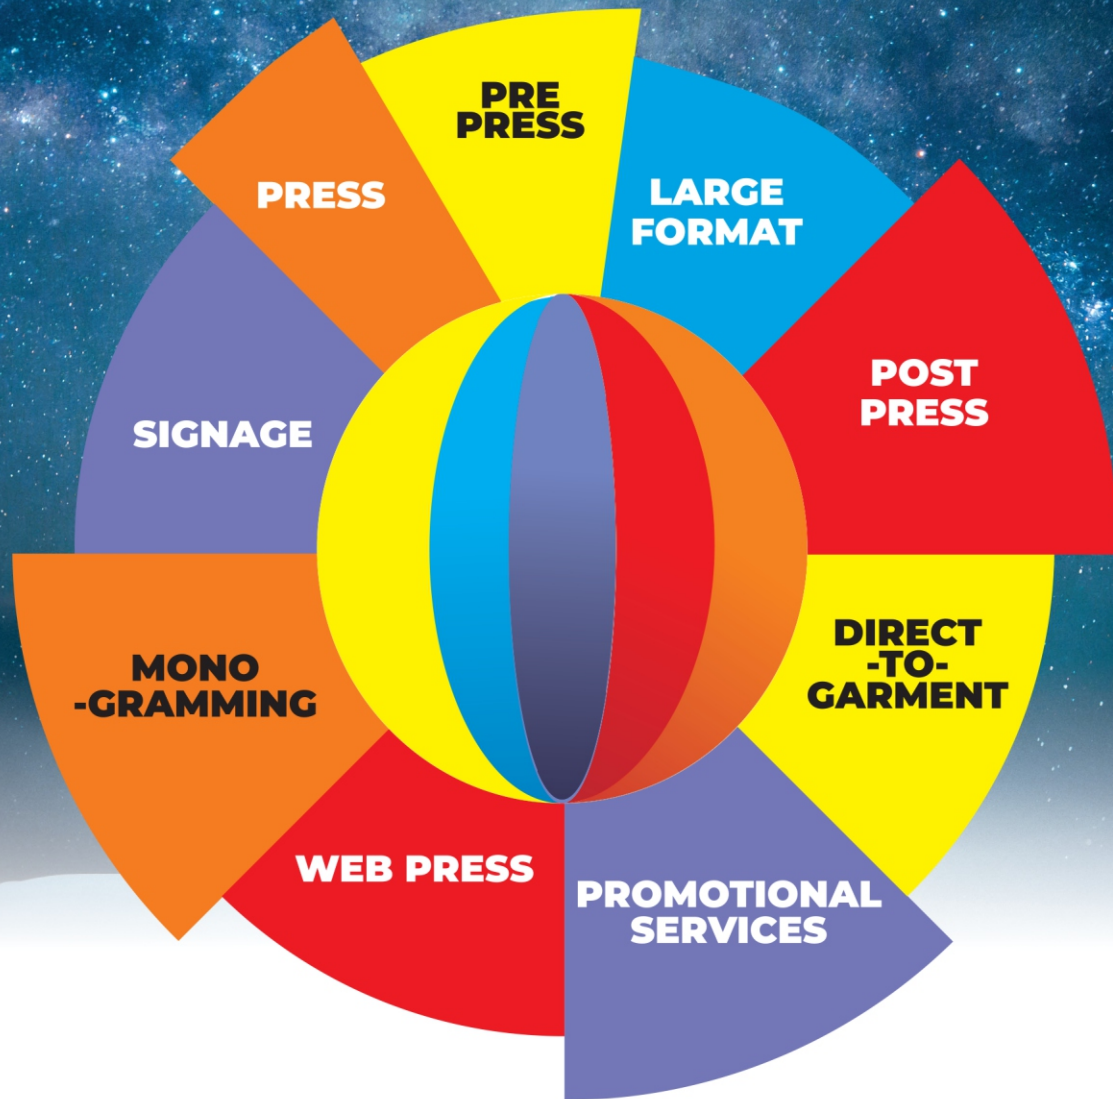

Cosmetic packaging monocartons are used to package and display various cosmetic products. They are designed to be visually appealing, sturdy, and functional. Monocartons protect the product from damage and contamination while providing branding opportunities. Sustainable materials and designs are being adopted to reduce waste and promote eco-friendly practices.

Liquor packaging monocartons are used to package and showcase alcoholic beverages. They are designed to be visually appealing, durable, and provide protection against breakage. Monocartons also serve as a medium for branding and product information. Sustainable packaging materials and designs are increasingly being used to minimize environmental impact in the liquor industry.

In pharmaceutical industry the monocartons protect medicines from light, moisture, and physical damage, ensuring their efficacy and safety. Monocartons also provide space for important information, such as dosage instructions and warnings. Compliance with regulatory standards and use of tamper-evident features are crucial in pharmaceutical packaging.
