PROPAK EAST AFRICA 2022 OPENS TO EXPAND MANUFACTURING BUSINESSES IN EAST AFRICA !

112 NEW COLORS
for Graphic Design
New Colors, New *Enlightenments*

PANTONE + EDDIE OPARA
Watch the video at pantone.com/plus

Today, the doors of Sarit Exhibition Centre are opened to professionals working in the packaging, printing, plastics and processing markets to bolster value-chains within these businesses in the region by connecting manufacturers, suppliers and end users across the world.

Taking place from **10 - 12 May 2022** with over 5,000 visitors expected across the 3-Day event to network with

more than 300 exhibiting brands, this year's **PROPAK East Africa** is considered that biggest so far since the show started 10 years ago.

This is because, PROPAK East Africa 2022 will again be collocating with two brand-new shows - **PRINT East Africa 2022** and **PROAGRO East Africa 2022**.

While PROPAK East

Africa 2022 - in its sixth edition - will be connecting professionals in marketing, packaging production, wide-format, commercial printing etc to build their community together by sharing insights, technological advances and opportunities, PROAGRO East Africa 2022 on the other hand is a brand-new event taking place within PROPAK East Africa.

WHAT'S NEW AT THIS YEAR'S PROPAK EAST AFRICA?

Angela Kinyua

Organisers of PROPAK East Africa have assured that this year's edition coming after COVID-19 hiatus will provide an invaluable experience like no other to every single participant whether exhibiting, speaking or visiting.

To Angela; "This year, we've invested in providing a FREE networking platform amongst all attendees where you can accept, decline and send meeting requests in advance, identify Conference and Seminar sessions to attend and work out your full schedule, all in advance. Then

have the App for when you arrive onsite to manage it all from your pocket! We're expecting this to vastly improve the already valuable experience at PROPAK East Africa this year - offering attendees the opportunity to make their visit worthwhile before they've even left their office".

This premier event is however the perfect platform for operators in the ever-growing agro-processing businesses in East Africa to introduce, connect, and interact with other major players within the business at this leading B2B industry event.

According to Alexander Angus - MD, Montgomery Group East Africa LTD - organiser of PROPAK East Africa, this year's edition has been carefully

planned to bolster businesses across East Africa just coming out of the effects of COVID-19: "Our mission is to bolster businesses in the region by connecting manufacturers, suppliers and end users across the world by offering the best in-person event platform to broker deals in the shortest time possible".

Agreeing with Alexander is Angela Kinyua, the Portfolio Director who disclosed to PROPAK East Africa DAILY that adequate measures have been put in place to ensure all participants are safe and well taken care of according to Kenyan health & safety regulations.

EXPAND YOUR HORIZONS AT THE ONLY PRINT-LED EXHIBITION IN EAST AFRICA IN 2022

(C) Heidelberg

Whether you're in marketing, packaging production, wide-format, commercial printing etc PRINT East Africa is designed to bring the community together to share insights, technological advances and opportunities.

Taking place from 10 - 12 May 2022, this year's **PRINT East Africa** will be your platform to access, exclusive conference sessions led by industry experts and valuable networking proceedings.

PRINT East Africa 2022 is expected to help you:

- **BUILD RELATIONSHIPS:** Attracting senior industry professionals, rest assured your products and services will be seen by top industry sector decision makers.
- **DEVELOP NEW MARKETS:** Known as the industry's showcase for cutting-edge technology, position your brand in front of the fastest growing economy in Africa.
- **GENERATE SALES LEADS:** Expand your customer base through the acquisition of highly targeted business leads.

CONFERENCES AT PROPAK EAST AFRICA 2022

Collocating with two brand-new shows - **Print East Africa** and **Pro-Agro**, this year's **PROPAK East Africa 2022** is packed with exclusive but free-to-attend Conference Sessions led by carefully selected industry experts who will share important insights on a broad range of topics during the three-day show.

Taking place concurrently from today Tuesday **10** to Thursday **12 May 2022** at the **Conference Area** of Sarit

Exhibition Centre, Nairobi-Kenya, the Conference will therefore provide latest information on the state-of-the-industry, general trends, and broad range of valuable information on current developments, new government policies and legislation as they affect the industry, businesses, sustainability and the environment.

This will further add to the learning opportunity PROPAK East Africa show provides while participants are also expected to have hands-on learning

and engagement experience with technical experts/ speakers thereby providing an invaluable networking opportunity within the East African region and beyond. In all, attendees will learn about market trends and opportunities to take their businesses to the next level.

Note that while the PROPAK East Africa Conference will be running throughout the show and its free to attend, seating is however organised on a first come first serve basis.

CONFERENCE PROGRAMME

Here are some of the Conference Sessions of interest.

TUESDAY 10 MAY

THE DAY'S THEME:

REGULATORY AND POLICY FRAMEWORKS FOR PACKAGING AND SKILLS DEVELOPMENT WITHIN THE PACKAGING INDUSTRY IN KENYA AND THE REST OF EAST AFRICA

10:45 - 11:30

PACKAGING IN KENYA REGULATORY AND POLICY FRAMEWORKS

Presented by

Julius Kirima

Director of Industry - Ministry of Industrialization, Kenya

11:30-12:15

SUSTAINABLE PACKAGING SKILLS DEVELOPMENT IN KENYA FOR LOCAL, REGIONAL AND GLOBAL MARKETS

Presented by

Joseph Nyongesa

President - African Packaging Association

SECTION 1: SUSTAINABILITY, THE PACKAGING INDUSTRY AND THE ENVIRONMENT

Cardboard and paper packaging has long been common practice in numerous African countries but globally, based on total value paid, plastic has been capturing more market share year after year because its costs have steadily decreased and it is more flexible and adaptable for packaging of differing colors, textures, and sizes. Yet, there is an ongoing debate within the East African community countries over whether plastic packaging is appropriate going forward for very justifiable environmental reasons.

[Continued on page 9 >>](#)

12:15-14:15

PANEL DISCUSSION ON WASTE MANAGEMENT AND THE ROLE OF A PRO IN THE REALIZATION OF A CIRCULAR ECONOMY IN KENYA

Presented by

 - RETAIL TRADE
 ASSOCIATION OF KENYA

14:30-15:00

ENERGY EFFICIENT, RESOURCE SAVING TECHNOLOGY FOR AUXILIARY EQUIPMENT

Presented by

Bernhard Stipsits
 Managing Director
 - BLUE AIR SYSTEMS GMBH

WEDNESDAY 11 MAY

**THE DAY'S THEME:
 AGRO PROCESSING, FOOD SAFETY AND
 FOOD TECHNOLOGY SOLUTIONS**

Many nations within the continent boast suitable agro-climatic conditions that allow for the production of diverse agricultural commodities yet these same countries continue to rely on the import of large quantities of food and other agricultural products. Despite a general increase in export of manufactured goods, imports of raw commodities have also increased

significantly. Moreover, Africa's exports are mainly dominated by raw materials highlighting how less and less of its commodities are being processed locally.

Agro-processing which covers post-harvest activities carried out for the preservation and preparation of raw material for final consumption or other purposes is essential for sustained and accelerated economic growth, food security, job

creation and poverty reduction. Agro-processing also has the ability to boost ancillary economic activities in the tertiary sector.

Developing ways to process, preserve, package and store food safely. This includes physical, mechanical, chemical, and biological procedures which modify foodstuffs aesthetically, nutritionally, texturally, and organoleptically

SECTION 1: FOOD SAFETY

Post-harvest infrastructure is key to store, transport and trade commodities. Poor infrastructure, or rather a lack thereof, can disrupt supply chains and lead to a reduction in yields that could have been utilised for the sale or processing of commodities. Raw commodities are naturally perishable however African countries boast higher than average post-harvest losses. Interventions are therefore needed to directly address these gaps.

Continued on page 10 >>

10:45-11:15**THE IMPORTANCE OF THE DRAINAGE SYSTEMS INSIDE FACTORIES IN TERMS OF FOOD SAFETY**

Presented by

Stefano Pisanu
Managing Director Kenya
& East Africa
- ACO KENYA &
EAST AFRICA

**11:30-12:00****THE BENEFITS OF PACKAGING AUTOMATION FOR FOOD SAFETY**

David Mulwa
Regional Sales Manager - ISHIDA
EAST AFRICA

**SECTION 2: SUSTAINABILITY, THE PACKAGING AND PLASTICS INDUSTRY, WASTE, RECYCLING AND THE ENVIRONMENT****12:15-12:45****SUSTAINABLE PACKAGING INNOVATION**

Packaging has an important role to play in addressing our waste crisis and climate change challenges. Packaging development today requires a systems-based approach to the innovation process and embedding of new packaging design principles and best practice, for brands to thrive in the future. Essentially it prompts decision-makers to carefully consider what they would change on their packaging to make it more environmentally sustainable, providing some practical example and case studies.

Presented by

Michelle Penlington
National Executive, Marketing
and Sustainability 
- POLYOAK
PACKAGING (PTY) LTD

**13:00-13:30****THE PACE OF CHANGE IN THE LABEL PRINTING AND PACKAGING INDUSTRY DEMANDS AND CLIENT'S NEEDS DRIVE THE NEW TRENDS.**

The changing environment brings about innovative changes in these industries and demand that OEMs and service providers adapt their value propositions to customers accordingly. It is to the advantage of both the customer and the OEM to identify and embrace these new opportunities and emerging technologies. Implementing them early on into a label or packaging printing business goes a long way in gaining a competitive advantage. Soon, product packaging will feature advanced functionalities along with serving its fundamental purpose.

Functionality and cost continue to remain the most important factors for brand owners. Ideally, they want the same quality and better performance at a fraction of the cost. As a result, innovation and new technologies are critical to providing and enabling label printing and packaging companies with printing solutions which cost less and provide improved functionality and performance.

The ROTOCON R&D department, its engineers, and its 15 international brand partners track these trends and are on the front foot to provide cutting edge technology and tailor-made turnkey solutions for label printing and packaging printers. We are committed to continue learning from our clients and industry trends, recommend the ideal solution to meet customer needs, and build long-term sustainable and profitable business relationships.

PRO-AGRO DEBUTS AT PROPAK EAST AFRICA 2022

PRO-AGRO East Africa 2022 is the latest addition to invaluable collocated shows within the PROPAK East Africa brand that will showcase cutting-edge solutions in agro-processing, food security, value addition, and sustainability.

As a brand-new event, PRO-AGRO will be a good place to introduce a new product or service in the agro-processing business where operators will be able to interact with major players within the industry. Not only that, at this leading B2B industry event of the year, the event will give exhibitors the right platform to pitch their offerings in-person and broker deals with their target market in the shortest time possible. PRO-AGRO will also aid those who want to build their marketing lists and generate qualified sales leads.

Taking place from **10 - 12 May 2022**, PRO-AGRO will be your platform to access, exclusive conference sessions led by industry experts and valuable networking events.

PRO-AGRO CONFERENCE

For the duration of the PRO-AGRO show, we will host daily conferences within the venue to increase awareness, knowledge, and understanding on the different products on display. The general goal of the conference is to bring you bespoke industry updates in an engaging environment, being delivered by expert guest speakers.

BENEFITS OF ATTENDING THE CONFERENCE

- Increase knowledge and uphold innovative positive values and attitudes, about the economic, social, environmental opportunities in the

Continued on page 13 >>

region.

- Meet value-chain stakeholders and share experiences with one another for scale up.
- Learn about business opportunities within the value-chain.
- Share innovations and new technologies within and outside Kenya with main actors within the value chain.

Ensure you pre-register at www.propakeastafrica.com to receive updates about **2022 Conference Agenda** straight to your inbox.

Area Sales  **SOMA**
Manager - SOMA

SECTION 3: AUTOMATED SOLUTIONS WITHIN THE PACKAGING INDUSTRY

There is an increasing demand for automated solutions within the packaging industry. Companies are adopting automated solutions for more innovative products to be delivered. Automated solutions aid reductions in labor costs and keep up with global supply trends. The packaging machinery industry is rapidly shifting to technology to develop innovative solutions for future-ready packaging and advanced processing, manufacturing, and supply chain models.
